12

12.1 IMPLEMENTATION CONCEPTS

The City of Urbana prepares a Capital Improvement Plan (CIP) each year that identifies all the infrastructure work to be implemented in the planning period, including roadways and bridge construction and maintenance. A plan showing these infrastructure works should be superimposed on the bicycle network plan to identify where the two sets of works overlap. Any desirable bicycle facilities should be incorporated in the mainstream infrastructure works rather than being retrofitted at greater expense and possibly to a lesser standard later.

Individual opportunities to incorporate bicycle projects with other programmed projects are likely to be scattered around the network, which means fragmented facilities until the inter-linking portions of the bicycle network are completed. This is unavoidable and acceptable as long as suitable transitions are designed. However, it is desirable to implement whole connected routes wherever possible, as incomplete bicycle facilities are likely to result in significant bicyclist dissatisfaction. As discussed in [Section 6.1](#), due to implementation of the 2008 UBMP, all existing facilities currently connect to one another, with the exception of two segments in Central Urbana, and the Walmart Trail in East Urbana.

See [Section 12.2](#) for recommended project implementation details.

12.1.1 PERIODIC BIKEWAY NETWORK REVIEW

At least every five years, the entire bicycle network and implementation recommendations should be reassessed to confirm its currency. Factors to consider include:

- Has the bicycle network development progressed as planned?
- Have bicyclist desire lines or bicycle route usage/preferences changed?
- Has bicyclist safety improved?
- Have there been significant changes to the transportation infrastructure or major land-use developments that require changes to the bicycle network plan?
- Are there opportunities to complete gaps in the network that should be given a higher priority?
- Are there new bike infrastructure facilities that improve roadway safety that should be considered for use locally?

12.1.2 MAINTENANCE

In order to achieve adequate maintenance of the bicycle network, there needs to be clear performance standards. There also needs to be adequate staffing and revenue funding covering the maintenance of bicycle facilities (on- and off-road), regarding surface quality, signing, markings, and intrusive vegetation. Regular inspection of network facilities is vital, as well as clear and well-publicized mechanisms for reporting defects.

Following are recommendations for bikeway maintenance based on the *Champaign County Greenways & Trails Plan* and *Urbana Park District Trails Master Plan*:

1. Protect green corridors providing and connecting open space.
2. Prioritize consistent upkeep and maintenance of bikeways (on-street and off-street).
3. Through good design practices, minimize weather related obstacles such as ice and mud. Bikeway segments that regularly have these problems should be identified and corrected when and where it is possible.
4. Prioritize improvements including accessibility to all facilities, facility safety, and improvements to field conditions.
5. Define ongoing preventive maintenance needs based on current facility conditions and build sustainable budgets based on this information.
6. Implement maintenance plans on trails and bikeways promoting safety, increasing efficiency, and minimizing lifetime costs.
7. Increase public awareness of how to report bikeway condition issues to the City of Urbana.
8. Support the creation of volunteer programs to provide additional trail maintenance support.
9. Schedule trail inspection on a regularly basis. Frequency will depend on the amount of trail usage, location, age and availability of staff.

Additionally, consider the use of permeable pavement when installing off-street shared-use paths. This will assist with stormwater management, returning more water to the ground instead of the storm sewer system. This can also help offset the loss of green space benefits when a paved surface is installed. [Figure 217](#) shows a wide permeable walkway in Carle Park installed by the Urbana Park District.

Figure 217 Carle Park permeable path

MAINTENANCE OF ON-ROAD BICYCLE FACILITIES

All on-road bicycle facilities have common maintenance needs:

- Debris which tends to end up in the expected travel path of bicyclists must be picked up.
- Repaint bike lane lines as regularly as those on the rest of the street.
- Sweeping of grit, glass, etc. should be done at the end of the winter season and at other times of the year when an accumulation of debris impacts bicycle travel, subject to manpower and equipment.
- Potholes that develop need to be repaired and left as smooth as weather conditions allow.
- Fill any large longitudinal cracks which can affect steering, trap a wheel and stop forward rotation.
- Address drainage at spots where puddles form and stay for over 48 hours – bicyclists will probably move over into the traffic lane (and surprise some motorists) if there is standing water in their usual travel path. Puddle locations become slick icy spots in winter.
- Plow snow off of bike lanes and bikeways when snow on the rest of the same street segment is plowed.
- Accommodate bicyclists during road construction.

Missing and vandalized signs for signed routes and bike lanes need to be replaced. Painted bike lane and shoulder bike lane pavement markings work well, but have to be renewed frequently. Thermoplastic that is not slick when wet is acceptable marking material and will last longer. A regular schedule for restriping of bike lanes, restenciling of sharrows, and replacement of bicycle wayfinding signage should be created. The City of Urbana should also maintain a comprehensive inventory of the location and age of bikeway and wayfinding signage to plan for sign replacement in the Capital Improvement Plan (CIP).

While infrastructure improvements are essential to building a bicycle network, there are also many other strategies for maximizing the use and effectiveness of the network. These are discussed in [Section 11.7](#), which can help make bicycling safer and more attractive in Urbana.

12.1.3 PUBLIC INPUT

The existing mechanisms listed below should be publicized for citizens interested in providing feedback on bicycle projects:

1. **Urbana City Council** (<http://www.urbanailinois.us/city-council>): public comment period at the beginning of meetings every 1st and 3rd Monday of the month; email or phone calls to Council members and/or the Mayor.
2. **Urbana Bicycle & Pedestrian Advisory Commission (BPAC)** (<http://www.urbanailinois.us/BPAC>): public comment at meetings every 3rd Tuesday of the month; email or phone calls to BPAC members.
3. **Urbana Plan Commission** (<http://urbanailinois.us/boards/plan-commission>): public comment when this commission reviews plans at meetings every 1st and 3rd Thursday following the 1st City Council meeting of each month.
4. **City of Urbana Citizens' Voice website** (<http://www.urbanailinois.us/citizens-voice>): questions, compliments, non-emergency problems, concerns, or suggestions can be submitted here.
5. **Project Open Houses** (<http://www.urbanailinois.us/departments/public-works>): usually posted to the Urbana Public Works webpage, and City of Urbana homepage.

12.1.4 PROJECT EVALUATION CRITERIA

Table 42 is a simple checklist that can be used by Urbana Public Works to analyze if bikeway accommodations are being met during road resurfacing and reconstruction projects. This has been adapted from the case study of Louisiana in the Federal Highway Administration’s (FHWA) *Statewide Pedestrian and Bicycle Planning Handbook*.

Have the following bicycle accommodations been provided?	Y/N	Comments
Bike Lanes?		
Paved Shoulders?		
Shared-Use Path?		
Bicycle-compatible drainage grates?		
Bicycle-compatible rumble strips?		
Bicycle-compatible expansion joints?		
Appropriate signage?		

Table 42 Bikeway accommodation checklist, adapted from the Federal Highway Administration (FHWA)

This FHWA document also highlights the example of the Colorado Department of Transportation (CDOT) using the goals of its 2012 *Statewide Bicycle and Pedestrian Plan* to create investment decision criteria for evaluating candidate bicycle and pedestrian projects.

Following is a list of evaluation criteria from *Creating Walkable+Bikeable Communities* that can help Urbana Public Works determine how to prioritize future bikeway projects. This supplements bikeway selection guidance discussed in [Sections 4.2, 4.3, and 4.5](#).

1. Overcoming barriers (physical or physiological)
2. Current or future demand for bicycling
3. Attracting “interested but concerned” bicyclists
4. Increasing safety and comfort
5. Filling existing gaps
6. Improving aesthetics
7. Improving health
8. Increasing social equity
9. Reduce vehicle miles traveled/air pollution/greenhouse gas emissions
10. Cost or cost-effectiveness
11. Political feasibility
12. Technical feasibility

12.1.5 ECONOMIC IMPACT OF BICYCLING

Some research exists to demonstrate the economic value of bicycling projects and events. Figure 218 shows how many aspects of the local and regional economy are impacted by bicycling. Table 43 lists typical expenditures that bicyclists spend in an area, with more coming from non-residents such could be the case when the Kickapoo Rail Trail is built into Urbana.

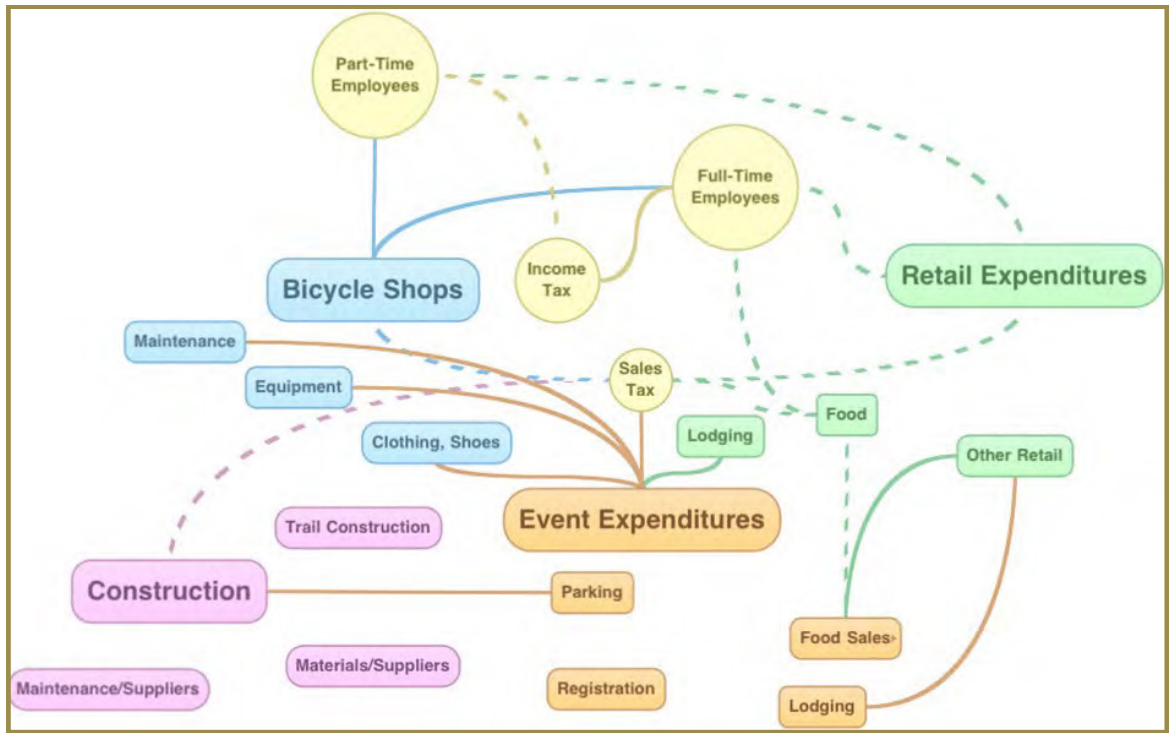

Figure 218 Connections between Economic Impact Areas of Bicycling (Credit: Haywood County, NC Bike Plan)

Activity	Resident Expenditures/Day	Non-Resident Expenditures/Day
Roadway	\$40	\$54
Trails	\$8-18	\$34
Single-Day Events	\$76	\$76
Multi-Day Tours	\$81	\$81

Table 43 Typical Expenditures from Various Types of Bicyclists
(Source: Nelson Institute for Environmental Studies Center for Sustainability and the Global Environment, via the Haywood County, NC Bike Plan)

Finally, Figure 219 was produced by the League of American Bicyclists (LAB) in 2013 to show how bicycling affects business in Illinois and Congressional District 13, which includes Urbana. Illinois received over \$26 million in federal investment for bicycling projects, a portion of which was received by Urbana. However, that return on investment was \$18.2 million in District 13, and \$212.8 million overall in Illinois. Bicycling has a high return on investment for the local and state economy.

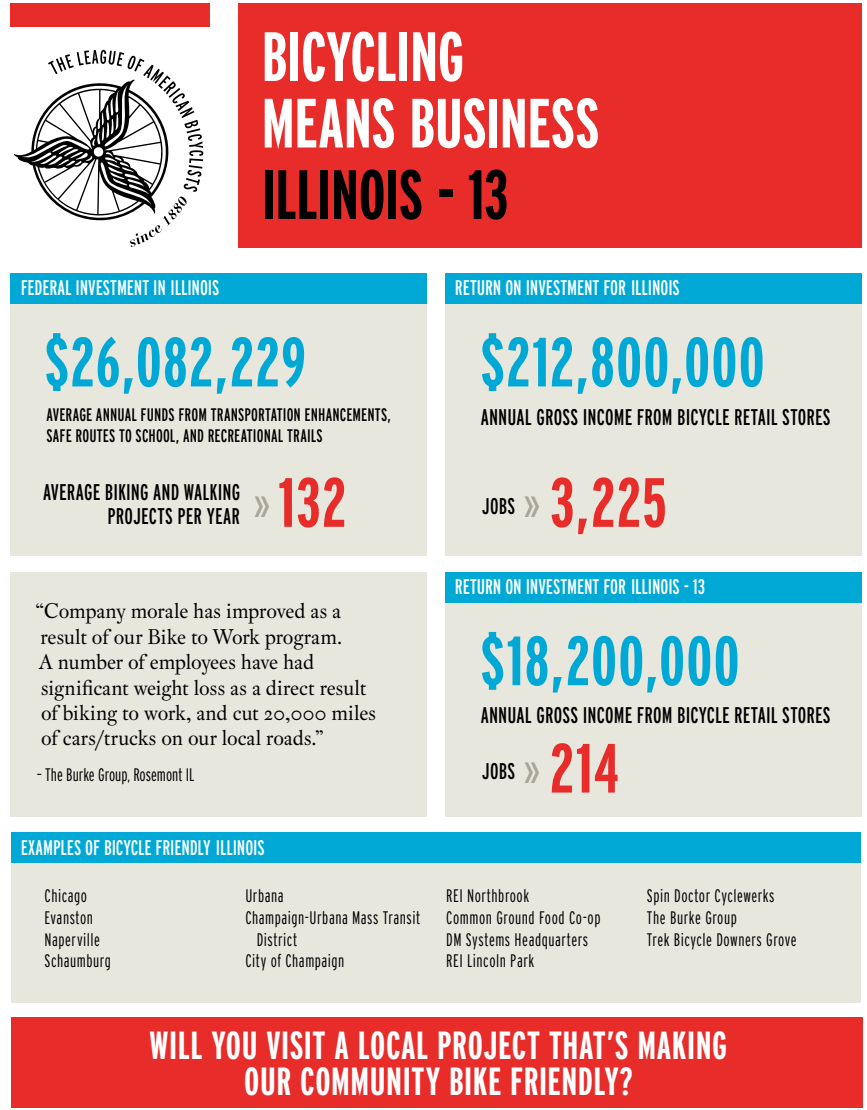

Figure 219 League of American Bicyclists (LAB) Bicycling Means Business 2013 Fact Sheet for Illinois Congressional District 13

12.1.6 HIGH PRIORITY INFRASTRUCTURE RECOMMENDATIONS

Figure 220 lists 10 high priority infrastructure recommendations that the City of Urbana and neighboring jurisdictions should try to work on implementing as opportunities arise. Some of these are large projects, and some currently do not have dedicated funding, but might be good candidates for grant applications. Others are smaller projects that might be candidates for use of the annual UBMP implementation line item in the Urbana Capital Improvement Plan (CIP). Several projects require interagency cooperation, and the City of Urbana should continue interagency cooperation when needed for implementation of any bikeway project.

Urbana Bicycle Master Plan (UBMP) High Priority Infrastructure Recommendations

Numbering does not reflect priority.

1. 2015-16 Projects
 - a. Bradley Avenue Bike Lanes (Lincoln-West City Limits) – [Section 11.2.6](#)
 - b. Cunningham Avenue Sidepath (Perkins-Kenyon) – [Section 11.2.19](#)
 - c. Washington Street Bike Lanes (Pfeffer-High Cross) – [Section 11.2.66](#)
2. Kickapoo Rail Trail access – [Section 11.2.35](#)
 - a. Trail construction from High Cross Road/IL 130 eastbound. Champaign County Forest Preserve District (CCFPD) jurisdiction.
 - b. Determination of trail alignment into Urbana between High Cross Road and Hartle Avenue. Coordinate with the Urbana Park District and CCFPD.
3. Begin to establish the Urbana Green Loop trail, in conjunction with the Urbana Park District – [Section 11.1.2](#)
4. Wayfinding signage installation on existing and proposed bikeways and trails – [Section 11.1.1](#)
5. Broadway Avenue ([Section 11.2.7](#)) sidepath along Crystal Lake Park. Coordinate with the Urbana Park District.
6. Bikeway access to North Urbana, especially along the Broadway Avenue ([Section 11.2.7](#)) and Cunningham Avenue ([Section 11.2.19](#)) corridors.
7. Florida Avenue Sidepath (Race-Lincoln) – [Section 11.2.27](#). University of Illinois jurisdiction.
8. Bikeway gaps on Race Street (Michigan-Pennsylvania; [Section 11.2.59](#)), and Washington Street (Vine-Walnut, at Race Street; [Section 11.2.66](#)) in Central Urbana.
9. Extend the Main Street bikeway west of Downtown Urbana, including an improved crossing of Lincoln Avenue – [Sections 11.2.44 and 11.3.1](#)
10. Continued increased bikeway installation to major destinations – [Sections 11.1.4 and 11.1.7](#)
 - a. This includes the Green Street MCORE Project – [Section 11.1.3](#)

Figure 220 UBMP High Priority Infrastructure Recommendations

12.2 IMPLEMENTATION MAPS & MATRICES

Figures 221-223 show the proposed bicycle improvements by timeframe: 0-5 years, 6-10 years, and 11+ years respectively. However, these projects will be completed depending on availability of funding.

The full list of bicycle network improvement projects include the following details:

- Project location
- Treatment type
- Agenc(ies) responsible
- Proposed timeframe of facility installation
- Future status of on-street parking
- Other relevant comments (e.g. temporary facilities, sidepaths that are part of a loop path)
- Estimates of striping, signage, and/or construction cost (based on information from the Pedestrian and Bicycle Information Center (PBIC) in [Appendix 21](#))

[Table 44](#) organizes the implementation matrix by treatment type. Streets and path names are alphabetized under each treatment type, corresponding to the alphabetization of corridors in [Chapter 11](#). For on-road facilities that require striping, the recommended dimensions are listed for bike lane, parking lane, and travel lane width. This is described in more detail in the bicycle database in [Appendix 16](#). The recommended side of the street is usually listed for sidepaths. Alignment is described for off-street paths.

[Table 45](#) shows the implementation matrix by the agency responsible for installing the facility, and is further divided by timeframe. A total cost of recommended improvements is also listed for each agency. The table first lists single-party responsibilities, then multi-party responsibilities. Costs do not include major roadway improvements, such as widening, resurfacing, etc. Costs do include such things as striping, signage, and pavement markings.

[Table 46](#) displays the implementation matrix by timeframe of implementation. These periods are broken into 0-5 years, 6-10 years, and 11 years or more.

Separate plans showing specific designs and each stage of the work should be prepared. Such plans help identify and avoid any gaps in the network. Plans should be publicized in the following manners, but not limited to these methods:

1. Project open houses
2. Bike Urbana website (<http://www.urbanailinois.us/bike-urbana>)
3. Urbana Public Television (UPTV)
4. City of Urbana social media (Facebook, Twitter)
5. Neighborhood listservs

TOTAL COST OF ALL PROPOSED PROJECTS										\$23,124,799

*Based on minimal field survey. Actual striping dimensions may change based on full engineering study.

**Costs do not include major roadway improvements, i.e. widening, resurfacing, etc. Costs only include striping, signage, pavement markings, etc.

12.2.1 URBANA GREEN LOOP IMPLEMENTATION TABLES

While there are numerous existing and proposed trail access points throughout the network, [Figures 140-141](#) and [Table 48](#) detail the loop segments from the most northwest park of Urbana (i.e. King Park) in a clockwise direction. Each part of the loop has a corresponding recommendation table starting from King Park and detailing the segment number, location, length, category, category type, and agency responsible ([Table 48](#)).

The ambitious nature of the **Urbana Green Loop** goes beyond the capacity of the Urbana Park District to implement. This system is achievable only through cooperation with the following agencies listed below, in the *Agency Responsible* column of [Tables 47-48](#); along with community support and continued pursuit of trail development:

1. City = City of Urbana
2. County = Champaign County
3. CUMTD = Champaign-Urbana Mass Transit District
4. IDOT = Illinois Department of Transportation
5. UIUC = University of Illinois at Urbana-Champaign
6. UPD = Urbana Park District
7. Township = Urbana Township

Table 47 Urbana Green Loop segments by Responsible Agency

Responsible Agency	Number of Segments				TOTAL
	Existing	Improvement Needed	Proposed	Study Area	
Urbana Park District	12	3	13	1	29
City of Urbana	35	1	30	0	66
University of Illinois	3	0	2	0	5
Urbana Township	0	0	3	0	3
Champaign County	0	0	1	0	1
CUMTD	0	0	1	0	1
IDOT	0	0	1	0	1
TOTAL	50	4	51	1	106

*Some segments have multiple responsible agencies.

98	Windsor Road	W of Race St	Wright St	0.92	Existing	On-street	Bike Lanes	City

12.3 FUNDING SOURCES

Recommendations in this plan range from low-cost or no-cost improvements to major capital investments. These may be funded in a number of ways.

Each year, local governments receive a set amount of funds from federal and state transportation agencies for transportation projects. They also have funding set aside within their own budgets for transportation projects. Local governments allocate most of this funding for roadway projects and only periodically allocate a small part of this funding for bicycle and/or pedestrian projects. Therefore, local agencies must seek funding from external sources for many proposed greenway, trail, and bikeway projects.

It is recommended that the City of Urbana continue to dedicate at least \$50,000 of Capital Improvement Plan (CIP) projects funding to bicycle improvements and maintenance annually. Potential activities include:

- Rehabilitation
- Sign Installation
- Pavement Marking Striping & Maintenance
- Amenity Installation (e.g. lights, bike racks, etc.)

The City of Urbana should also continue to coordinate with the **Champaign County Greenways & Trails member agencies** on regional bikeway and trail planning, in case there are funding opportunities that can benefit multiple jurisdictions. Project funding may come from member agencies such as the **Urbana Park District, Champaign County Forest Preserve District (CCFPD), Champaign County Highway Department, Illinois Department of Transportation (IDOT), or the University of Illinois.**

Beyond those member agencies, the City of Urbana should maintain a relationship with the **Champaign-Urbana Public Health District (CUPHD) and Healthy Champaign County (HCC)**, as funding and resources for bicycle use and education have become increasingly available from the public health sector.

Another major builder of bikeways is **developers**. Plan recommendations may be implemented opportunistically when a new subdivision or commercial development is added.

Other opportunities include road projects by the City, County, or State. Including bikeways as part of a larger road project is substantially cheaper and easier than retrofit bike projects. Even resurfacing work can be used to add on-road bikeway striping, sometimes at no additional cost.

Road impact fees help pay for road improvements needed as an impact of development. Should the opportunity arise for the City of Urbana, a novel approach would be to require a non-motorized transportation impact fee along with road impact fees.

Trails for Illinois is another organization that the City of Urbana can investigate working with on regional trail projects, especially the **Illinois Trails Corps** that piloted the “do-it-yourself trail building” model in Shelby County, IL in 2014. A young adult service corps and volunteers were recruited to repair, rebuild, and extend nearly 27 miles of hiking, biking and equestrian trails in Shelby County.²²

The City of Urbana should explore working with the **Rails-to-Trails Conservancy** on long-term rail-trail corridor recommendations.

At the state level, the **Illinois Department of Transportation (IDOT)** and **Illinois Department of Natural Resources (IDNR)** provide the most access to funding for bikeways and trails. Those funding sources, along with federal, private, and non-profit sources are listed below. The E’s that apply to each funding source are also noted under the Category field.

22. Trails for Illinois. Illinois Trail Corps. <http://www.trailsforillinois.org/ILtrailcorps>

State of Illinois			
Department of Natural Resources (IDNR)			
Illinois Bicycle Path Program			
Department: IDNR	Deadline: March 1st	Maximum Amount: \$200,000 for Development Projects, None for Acquisition Projects	Category: Engineering
Description: The Illinois Bicycle Path Grant Program was created to financially assist eligible units of government acquire, construct, and rehabilitate public, non-motorized bicycle paths and directly related support facilities. Grants are available to any local government agency having statutory authority to acquire and develop land for public bicycle path purposes. Financial assistance up to 50% of approved project costs is available through the program.			
Website: https://www.dnr.illinois.gov/AEG/Pages/BikePathProgram.aspx			
Illinois Biodiversity Field Trip			
Department: IDNR	Deadline: January 31st	Maximum Amount: \$500	Category: Education
Description: Grants are only available to teachers in Illinois and should be for the purpose of studying some aspect of Illinois' biodiversity, referring to the variety of life in an area. The field trip site must be in Illinois and can include state parks, natural areas, natural history museums and nature centers. A budget with an itemized list of expenditures to be covered by the grant must be included. Items eligible for funding include: transportation, substitute teachers, admission fees, and guest speakers.			
Website: http://dnr.state.il.us/lands/education/CLASSRM/grants.htm			
Off-Highway Vehicle (OHV) Recreation Program			
Department: IDNR	Deadline: March 1st	Maximum Amount: N/A	Category: Engineering
Description: The OHV grant program provides financial aid to government agencies, not-for-profit organizations, and other eligible groups or individuals to develop, operate, maintain, and acquire land for off-highway vehicle parks and trails. These facilities must be open and accessible to the public. The program can also help restore areas damaged by unauthorized OHV use. The program can provide up to 100% funding reimbursement assistance for approved, eligible project costs.			
Website: https://www.dnr.illinois.gov/AEG/Pages/OffHighwayVehicleprogram.aspx			
Open Space Lands Acquisition and Development Program (OSLAD) & Land and Water Conservation Fund (LWCF)			
Department: IDNR	Deadline: Between May 1st & July 1st	Maximum Amount: \$750,000 for Acquisition Projects, \$400,000 for Development/Renovation Projects	Category: Engineering
Description: The OSLAD Program is a state-financed grant program that provides funding assistance to local government agencies for acquisition and/or development of land for public parks and open space. The federal LWCF program (also known as LAWCON) is a similar program with similar objectives. Projects vary from small neighborhood parks or tot lots to large community and county parks and nature areas. Both programs provide funding assistance up to 50% of approved project.			
Website: https://www.dnr.illinois.gov/AEG/Pages/OpenSpaceLandsAquisitionDevelopment-Grant.aspx			

Recreational Trails Program (RTP)

Department: IDNR	Deadline: March 1st	Maximum Amount: N/A	Category: Engineering
<p>Description: This program provides funding assistance for acquisition, development, rehabilitation and maintenance of both motorized and non-motorized recreation trails. Examples of eligible project activities include: trail construction and rehabilitation; restoration of areas adjacent to trails damaged by unauthorized trail uses; construction of trail-related support facilities and amenities; and acquisition from willing sellers of trail corridors through easements or fee simple title. By law, 30% of each state’s RTP funding must be earmarked for motorized trail projects, 30% for non-motorized trail projects and the remaining 40% for multi-use (diversified) motorized and non-motorized trails or a combination of either. The RTP program can provide up to 80% federal funding on approved projects and requires a minimum 20% non-federal funding match.</p>			
Website: https://www.dnr.illinois.gov/AEG/Pages/FederalRecreationalTrailsProgram.aspx			

Snowmobile Grant Program

Department: IDNR	Deadline: May 1st	Maximum Amount: N/A	Category: Engineering
<p>Description: The state-funded Snowmobile Grant Program for local governments is financed from the registration fees of snowmobiles and provides up to 50% reimbursement of approved facility development/rehabilitation costs and 90% of approved trail corridor land acquisition costs for public snowmobile trails and areas in the state. This program is available to any unit of local government located in a region of Illinois with sufficient snow cover and having statutory authority to acquire and develop lands for public park and recreation purposes.</p>			
Website: https://www.dnr.illinois.gov/AEG/Pages/LocalGovernmentSnowmobileProgram.aspx			

Snowmobile Trail Establishment Fund (STEF)

Department: IDNR	Deadline: May 1st	Maximum Amount: N/A	Category: Engineering
<p>Description: The Snowmobile Trail Establishment Fund (STEF) Program provides financial assistance to incorporated, private snowmobile clubs in Illinois. The STEF Program provides reimbursement funding assistance up to 100% of eligible project costs. Funds for the program come from a portion of snowmobile registration fees collected by the state. Grants may be obtained by local snowmobile clubs to develop and maintain additional public trails and facilities in the state. Although grants are made to private clubs, STEF-assisted snowmobile trails and facilities must be open and available for general public use.</p>			
Website: https://www.dnr.illinois.gov/AEG/Pages/SnowmobileTrailEstablishmentFund.aspx			

Department of Transportation (IDOT)			
Illinois Transportation Enhancement Program (ITEP)			
Department: IDOT	Deadline: Set by IDOT	Maximum Amount: N/A	Category: Engineering
<p>Description: ITEP provides funding for community based projects that expand travel choices and enhance the transportation experience by improving the cultural, historic, aesthetic and environmental aspects of our transportation infrastructure. Project sponsors may receive up to 80 percent reimbursement for project costs. The remaining 20 percent is the responsibility of the project sponsor. A project must qualify as one of the 6 eligible categories listed in the ITEP Guidelines Manual and it must relate to surface transportation to be eligible for funding.</p>			
<p>Website: http://www.dot.il.gov/opp/itep.html</p>			
Pedestrian & Bicycle Safety Program (PBS)			
Department: IDOT	Deadline: Set by IDOT	Maximum Amount: N/A	Categories: Education, Enforcement
<p>Description: Pedestrian and Bicycle Safety Program (PBS) is designed to aid public agencies in funding cost-effective projects that improve pedestrian and bicycle safety through education and enforcement. The primary focus of this program will be on areas experiencing disproportionately high pedestrian and bicycle crashes and surrounding facilities such as schools, parks, and senior centers.</p>			
<p>Website: http://www.trafficsafetygrantsillinois.org</p>			
Safe Routes to School (SRTS)			
Department: IDOT	Deadline: Set by IDOT	Maximum Amount: \$200,000 for Infrastructure Applications, \$30,000 for Non-Infrastructure Applications	Categories: Engineering, Education, Encouragement, Enforcement, Evaluation
<p>Description: The Illinois Safe Routes to School Program (SRTS) is a federally funded program administered by the Illinois Department of Transportation. The Illinois SRTS Program supports projects and programs that enable and encourage walking and bicycling to and from school. The program applies to schools serving grades Kindergarten through 8th grade. Project sponsors may receive up to 80 percent reimbursement for project costs. The remaining 20 percent is the responsibility of the project sponsor.</p>			
<p>Website: http://www.dot.il.gov/saferoutes/saferouteshome.aspx</p>			

Private & Non-Profit Organizations (Nationwide, State)			
AmeriCorps Funding Opportunities			
Organization: Corporation for National and Community Service (CNCS)	Deadline: Varies	Maximum Amount: Varies	Categories: Engineering, Education
Description: The Corporation for National and Community Service (CNCS) provides grants through its AmeriCorps program to national and local nonprofits, schools, government agencies, faith-based and community organizations, and other groups committed to strengthening their communities through volunteering. The promotion of environmental stewardship is one of CNCS' six focus areas.			
Website: http://www.nationalservice.gov/build-your-capacity/grants/funding-opportunities			
Doppelt Family Trail Development Fund			
Organization: Rails-to-Trails Conservancy (RTC)	Deadline: Varies	Maximum Amount: \$10,000 for Community Support Grants, \$50,000 for Project Transformation Grants	Categories: Engineering, Encouragement
Description: The Rails-to-Trails Conservancy (RTC) launched a new grant program in 2015 to support organizations and local governments that are implementing projects to build and improve rail-trails. Under the Doppelt Family Trail Development Fund, RTC will award a total of \$85,000 per year for the next five years to qualifying projects through a competitive process.			
Website: http://www.railstotrails.org/our-work/doppelt-family-trail-development-fund/			
National Trails Fund			
Organization: American Hiking Society	Deadline: Mid-December	Maximum Amount: \$5,000	Category: Engineering
Description: The American Hiking Society's National Trails Fund is the only privately funded, national grants program dedicated solely to building and protecting hiking trails. Created in response to the growing backlog of trail maintenance projects, the National Trails Fund has helped hundreds of grassroots organizations acquire the resources needed to protect America's cherished hiking trails. Grant applicants must be a member of the American Hiking Society Alliance and a 501(c)(3) non-profit organization.			
Website: http://www.americanhiking.org/national-trails-fund/			
New Belgium Environmental Stewardship Grants Program			
Organization: New Belgium Brewing Company	Deadline: Varies depending on grant strategy	Maximum Amount: \$10,000	Categories: Engineering, Education, Encouragement
Description: The purpose of New Belgium's Environmental Stewardship Grants Program is to serve and connect with the communities where they sell their beers. Their goal is to improve the health of the planet and inspire others to joyously embrace sustainable choices. They focus their grants on the following four strategies to mitigate human impacts on the planet: youth environmental education, sustainable agriculture, sensible transportation & bike advocacy, and water stewardship.			
Website: http://www.newbelgium.com/sustainability/Community/Philanthropy.aspx			
People for Bikes (PFB) Community Grants Program			
Organization: People for Bikes	Deadline: Varies; Letter of Interest Required	Maximum Amount: \$10,000	Category: Engineering
Description: The People for Bikes (PFB) Community Grants Program provides funding for important and influential projects that leverage federal funding and build momentum for bicycling in communities across the U.S. These projects include bike paths, bike lanes, rail trails, bridges, mountain bike trails, bike parks, BMX facilities, end-of-trip facilities, and large-scale bicycle advocacy initiatives.			
Website: http://www.peopleforbikes.org/pages/community-grants			

Walmart Community Grant Program			
Organization: Walmart Foundation	Deadline: December 31st	Maximum Amount: \$2,500	Categories: Education, Encouragement
Description: Walmart believes in operating globally and giving back locally – creating impact in the neighborhoods where they live and work. Through the Community Grant Program, their associates are proud to support the needs of their communities by providing grants to local organizations. These include non-profit organizations, state and local government entities, educational institutions, and faith-based organizations. The Walmart Foundation engages in opportunities to align with its key areas of focus: Hunger Relief & Healthy Eating, Sustainability, Women’s Economic Empowerment, and Career Opportunity. However, programs that do not align with these areas will still be given consideration.

12.4 FULL TIME BICYCLE/PEDESTRIAN COORDINATOR

Perhaps the key recommendation of this plan is to develop a way to ensure its implementation. In line with Goal 5.5 of this plan, the City of Urbana should pool resources with other local agencies to create a full-time bicycle/pedestrian coordinator position at a regional agency. Regional agencies include the Champaign County Regional Planning Commission (CCRPC), Champaign-Urbana Mass Transit District (CUMTD), and the Champaign-Urbana Public Health District (CUPHD).

Ensuring that Urbana continues to improve the 5 E’s of bicycling and maintain (and improve) its Gold Level Bicycle Friendly Community status is a full-time job (especially as evidenced during implementation of the 2008 UBMP), and can be a large responsibility for existing City staff. It is also a large responsibility for the C-U Safe Routes to School (SRTS) Project, which relies heavily on volunteers, and will struggle to survive without SRTS grant funding. The establishment of this position would also put Urbana in line with the peer and model cities reviewed in Sections 3.3-3.6. Activities of this position can include working on bicycle planning, design and engineering issues, as well as coordination of education, encouragement, and enforcement activities. With the number of local agencies in Champaign-Urbana that are involved in and benefit from bicycling, the logical approach is to house this coordinator at a regional agency. Other agencies that could be approached to pool resources to create this position are the Urbana Park District, University of Illinois, Champaign County Forest Preserve District, City of Champaign, Champaign Park District, and/or Village of Savoy.
