

MIC – MEDICAL INSTITUTIONAL CAMPUS ZONING DISTRICT

ZONING DESCRIPTION SHEET

According to an amendment of Section IV-2 of the Urbana Zoning Ordinance, the purpose and intent of the MIC Zoning District is as follows:

“The MIC, Medical Institutional Campus District is intended as a conversion district to assist and encourage the development of the medical institutional and complementary land uses in a campus setting by creating special zoning approaches. These new zoning approaches are applicable to institutions which have multi-block common ownership of lands, have developed a long-range master site plan, and thereby have developed a campus support system of parking, loading and materials handling, decentralized support facilities reducing campus congestion, and interconnecting system of above and below ground corridors. At present, the Carle Foundation is the only medical institution land owner with these qualities which define a campus style and development approach and therefore a campus style zoning approach is reasonable.

It is the intent that the lands within the boundaries of Lincoln Avenue, Church Street, the Conrail Railway Company right-of-way, and McCullough Street extended north to Church Street will constitute the Special District. All special regulations created by this Special District will only be applicable and in force on properties which are or will be developed as a hospital or related medical use and their support uses. To the extent properties within this Special District are not, or will not, be developed with a Medical Related Use, the special regulations created by this Special District shall not apply and the use of such property shall be regulated by the property’s underlying zoning district, unless the property is rezoned to MIC per Article XI of the Urbana Zoning Ordinance.”

In addition, medical related uses as defined in Section II-3 of the Urbana Zoning Ordinance are as follows:

Medical Related Uses shall include doctors’ offices, laboratory facilities, rehabilitation services, alternative medical practices such as acupuncture or massage therapy, guest house for patient families/support members, insurance or health maintenance organization office, sale of medical supplies, prosthesis, medicines and other uses which are supportive of or affiliated with medicine, hospital, or clinic and accessory parking for said uses. (*Ordinance No. 9596-48, § 2, 12-4-95*) (*Ordinance No. 2001-10-117, 1792-T-01*)

Following is a list of the Permitted Uses in the MIC District. All of the following uses are allowed by right.
