TO: Members, Urbana Firemen's Pension Fund

FROM: Ronald Eldridge, Treasurer *Ron Eldridge*

Attached please find the annual financial report and audit for the Firemen's Pension Fund for the fiscal year ended June 30, 2000. Some important points of the audit are:

- 1) The financial statements have been prepared in accordance with generally accepted accounting principles ("clean opinion"). The auditor's opinion letter on this finding is on page 1.
- 2) In performing their work, the auditors did not discover any significant weaknesses in the fund's internal accounting controls. It is the policy of the auditor that no separate letter is issued in this circumstance.
- 3) Net worth of the fund has grown to \$21,932,733, up \$1,529,338 from last year. This growth is approximately twice last year's amount.
- 4) The city's contribution was based upon an actuarial study performed by the actuarial firm of Tim Sharpe. The amount required to be contributed by the City was \$440,150. The amount actually contributed by the City was \$458,118. The fund is at a 97.6% funding level. Ten years ago, this funding level was 83% and 87% 5 years ago.
- 5) A review of the makeup of the investment portfolio shows that approximately 10 years ago 90% of the funds were invested in U.S. government securities and bank certificates of deposit until state law changed and allowed investments in mutual funds in January 1998. The fund averaged it's investment in the mutual funds over a 24 month period. In May of 2000, the fund reached the maximum allowable amount for mutual funds and insurance accounts (45% level). Over the past 10 years, the fund has significantly shifted investments in certificates of deposit to mutual funds and insurance accounts.:

	Percent of Portfolio				
	<u>00</u>	<u>99</u>	<u>98</u>	<u>97</u>	<u>90</u>
U.S. Government	52	66	73	80	51
Cert. Of Deposit	2	2	5	6	40
Insurance Annuities	12	11	15	13	5
Savings/Checking	1	1	2	1	4
Mutual Funds	33	20	5	0	0

6) The average weighted length of maturity on fixed income investments is approximately 6.25 years for U.S. Government Securities and 1-2 years for certificates of deposit. Traditionally, the longer maturity period, the higher the return. However, for the last 2-3 years, this differential return has been significantly smaller and leveled out after 5 years.

7) A breakdown of the investment return by investment type follows:

	\$		% Return	
	<u>2000</u>	<u>1999</u>	<u>2000</u>	<u>1999</u>
Savings/Money Markets	16,060	12,960	4.7%	4.7%
Cert. Of Deposit	26,278	43,968	6.1	6.0
U.S. Government	901,001	998,953	8.3	8.3
Subtotal	943,339	1,055,881	8.2	8.1
Loss Ins. Contract Sold	0	(83,135)	n/a	n/a
Loss U.S. Govt. Sold	(56,872)	0	n/a	n/a
Subtotal, Realized	886,467	972,746	7.6	7.5
Unrealized Market Gains:				
Insurance Annuities *	518,547	293,443	21.3	10.4
Mutual Funds * @	795,843	577,912	15.4	18.7
Subtotal	2,200,857	1,844,101	13.7	11.5
Unrealized Gain (Loss)				
On U.S. Govt.	(298,534)	(565,763)	n/a	n/a
Total	1,902,323	1,278,338	10.6	8.0

\*Net of all fees, @ including dividends

8) A historical review of investment return shows that over the last 5 years, the fund has historically averaged approximately an 8.0% to 7.5% return before equities. The fund has been able to increase the total return to approximately 12% by investing in equity securities (insurance annuities and mutual funds beginning in 98):

	<u>2000</u>	<u>1999</u>	<u>1998</u>	<u>Last 3 Yrs</u>	<u>Last 5 Yrs</u>	<u>Last 10 Yrs</u>
Return Before Equities	7.6%	7.5%	8.3%	7.8%	7.9%	8.1%
Total Return	13.7%	11.5%	12.7%	12.6%	11.6%	10.1%

9) The cost of benefit increases are expected to increase over time. Most members drawing benefits by law receive a 3% annually compounded increase in addition to increases in the number of retirees and the increased salaries at retirement that these benefits are based on. Benefit costs increased 3.5% in 2000 compared to 1999 and have averaged an annual 6.4% increase over the last 3 years and 14% over the last 10 years. An examination of the total amount paid out for benefits shows the following increases over last year and the last 10 years:

	<u>2000</u>	<u>1999</u>	<u>1998</u>	<u>1990</u>
Disability	\$149,909	\$140,604	\$139,469	\$ 69,505
Service	762,643	743,146	681,029	150,429
Dependent	78,295	74,546	68,952	46,629
Total	\$991,477	\$958,296	\$889,450	\$266,563

10) An examination of the number and make up of members receiving benefits provides insight into certain trends and changes affecting previous and future pension costs:

	<u>Disability</u>				<u>Service</u>				<u>Dependent</u>		
	<u>#</u>	<u>Ave. Age</u>	<u>Serv. Yrs</u>	<u>Ave. Ben.</u>	<u>#</u>	<u>Ave. Age</u>	<u>Serv. Yrs</u>	<u>Ave. Ben.</u>	<u>#</u>	<u>Ave. Age</u>	<u>Ave. Ben.</u>
2000	9	64	17	\$1,385	29	60	24	\$2,210	8	72	\$893
1999	10	63	16	\$1,278	29	58	23	\$2,129	7	71	\$878
1998	10	59	16	\$1,161	28	57	23	\$2,055	8	74	\$758
1997	11	59	16		29	56	23		6	74	
1996	11	59	16		26	57	25		6	73	
1992	9	58	14		14	60	22		7	73	
1987	8	59	14		7	60	23		6	66	

11) The only change in 2000 affecting disability pensioners is one member on disability pension died (McCabe). The number has not changed much since 1987 (8). The average monthly benefit increased 8% because there was 3 pensioners that received the mandatory increase to \$800 on Jan. 1 (Glenn, Slade, Marshall).

12) The only changes in 2000 affecting regular service pensioners is one new pension was awarded (Rose) and one pensioner died (Breen). Thus the number of service pensioners stayed the same at 29. The number of regular pensions since 1987 has increased significantly from 7. The average monthly benefit increased 3.8%

13) The only change in 2000 in dependents pensions is the addition of Ms. Breen due to the above mentioned death. There is one child dependent (Johnson).

14) An examination of the number and make up of current firefighters provides insight into certain trends and changes affecting previous and future pension costs:

	<u>#</u>	<u>Ave. Age</u>	<u>Ave. Yr. Service</u>	<u>Ave. Salary</u>
2000	47	36	8.5	41,830
1999	46	37	8.2	40,260
1998	47	39.9	10.0	38,412
1997	40	38.3	11.0	33,911
1996	40	37.3	10.1	34,928
1992	41	41.6	14.6	32,213
1988	42	42.2	17.4	28,435

15) In 2000, two new firefighters were admitted into the fund (Short and Stewart). Since 1988, the workforce has become significantly younger in both age and years of service. Average salaries of firefighters increased 4% in 2000 over 1999. Since 1992, the average salary of each fund member have increased an annual amount of 3.25%.

## Independent Auditor's Report

We have audited the accompanying financial statements of City of Urbana, Illinois Firemen's Pension Fund, a trust and agency fund of the City of Urbana, as of and for the years ended June 30, 1999 and 2000, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described more fully in Note 1, the financial statements present only one trust and agency fund of the City of Urbana and are not intended to present fairly the financial position and results of operations of the City in conformity with generally accepted accounting principles.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the plan net assets of the City of Urbana, Illinois Firemen's Pension Fund, a trust and agency fund of the City of Urbana, as of June 30, 1999 and 2000, and the changes in plan net assets for the years then ended in conformity with generally accepted accounting principles.

Our audits were made for the purpose of forming an opinion on the financial statements referred to in the first paragraph taken as a whole. The required supplementary information listed in the table of contents has been subjected to the auditing procedures applied in the audits of the financial statements and, in our opinion, is presented fairly, in all material respects, in relation to the financial statements taken as a whole.

**CITY OF URBANA, ILLINOIS  
FIREMEN'S PENSION FUND**

**-4-**

**Notes to Financial Statements  
June 30, 2000 and 1999**

Note 1 - Summary of Significant Accounting Policies:

The Pension fund was organized on April 4, 1927, and is exempt from federal income tax. The pension fund is created and operated under state laws that provide for a fund to be established to provide certain retirement benefits to firefighters and their dependents (see Note 2). The fund is managed by a board of seven trustees made up of three city officials and four persons elected by the members of the board. The Pension fund is also included in the annual report of the City of Urbana, as a trust and agency fund, according to the criteria specified in governmental accounting standards.

Investments are reported at fair value. Fair values for U.S. government securities, insurance contracts, stock mutual funds and money funds are based upon latest quoted prices. Investment transactions are reported as of the trade date. Interest income is recognized as earned. Realized gains and losses on sales and exchanges of securities and unrealized gains and losses are reported as net appreciation (depreciation) in the fair value of investments.

The fund considers all liquid investments with a maturity of three months or less when purchased to be cash equivalents. At June 30, 2000 and 1999, there were no investments that were considered cash equivalents.

Property taxes are recognized for the year levied. The 1999 levy is reported in fiscal year 2000 and the 1998 levy in fiscal year 1999. The taxes are certified against appraised real property as of the beginning of the previous calendar year.

The preparation of financial statements requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions from plan net assets during the reporting period. Actual results could differ from those estimates.

Note 2 - Pension Disclosure Information:

a. Plan Description:

The Pension fund is a defined benefit single-employer pension plan that covers all sworn firefighting personnel. Although this is a single-employer plan, the defined benefits and Illinois State Statues govern

CITY OF URBANA, ILLINOIS  
FIREMEN'S PENSION FUND

-5-

Notes to Financial Statements  
June 30, 2000 and 1999

employee and employer contribution levels. This fund is accounted for and reported as a pension trust fund. The City's payroll for employees covered by the pension plan for the year ended June 30, 2000, was \$2,445,598 out of a total payroll of \$9,461,749.

At June 30, 2000 and 1999, the pension plan membership consisted of:

	<u>2000</u>	<u>1999</u>
Retirees and beneficiaries currently receiving benefits	47	46
Terminated plan members entitled to but not yet receiving benefits	1	1
Active vested plan members	15	15
Active non vested plan members	<u>32</u>	<u>32</u>
Total	<u>95</u>	<u>94</u>
Number of participating employers	1	1

Following is a summary of the firemen's pension plan as provided for in the Illinois Statutes.

The firemen's pension plan provides retirement benefits as well as death and disability benefits. Employees attaining the age of 50 or more with 20 or more years of creditable service are entitled to receive an annual retirement benefit of one-half of the salary attached to the rank held at the date of retirement. The pension shall be increased by one-twelfth of 2½ % of such salary for each month over 20 years of service through 30 years of service, ~~and one-twelfth of 1% of such service for each additional month between 30 and 35 years of service,~~ to a maximum of 75% of such monthly salary. Employees with at least 10 years, but less than 20 years of credited service, may retire at or after age 60 and receive a reduced benefit. The monthly pension of a firefighter who retired with 20 or more years of service after January 1, 1977, shall be increased annually, following the first anniversary date of retirement, and paid upon reaching at least the age 55, by .25% of the original pension times the number of months the employee has been retired since age 50

**CITY OF URBANA, ILLINOIS  
FIREMEN'S PENSION FUND**

-6-

**Notes to Financial Statements  
June 30, 2000 and 1999**

(up to a maximum of 15%), and 3% annually thereafter of the pension payable at the time of the increase.

Covered employees are required to contribute 8.455% of their salary to the Firemen's Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City of Urbana is required to contribute the remaining amounts necessary to finance the plan as actuarially determined by an enrolled actuary. By the year 2034, the City's contributions must accumulate to the point where the past service cost for the Plan is fully funded.

b. Plan Asset Matters:

The fund has the following investments that are greater than 5% of net assets and held by a single organization:

- 1) Investments in U.S. Government and U.S. Government guaranteed obligations total 52% of net assets.
- 2) An investment in the Vanguard 500 Index Mutual Fund is 11% of net assets.
- 3) An investment in the Nicholas Mid Cap Blend Mutual Fund is 5% of net assets.
- 4) An investment in the Fidelity Magellan Large Blend Mutual Fund is 6% of net assets.

There are no investments that are securities or obligations of the City of Urbana.

c. Funding Policy and Annual Pension Cost:

The amount shown below as the "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of

CITY OF URBANA, ILLINOIS  
FIREMEN'S PENSION FUND

-7-

Notes to Financial Statements  
June 30, 2000 and 1999

employee service to date. The measure is intended to help users assess the funding status of the system on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among employers. The measure is accrued liability and is a component of the funding method used to determine contributions to the system.

The funding policy provides for actuarially determined periodic contributions at rates that, for individual employees, accumulate assets gradually over time so that sufficient assets will be available to pay benefits when due. The rate for the City's employee group as a whole has tended to remain level as a percentage of annual covered payrolls. The contribution rate for normal cost is determined using the entry age normal actuarial funding method. The system used a level percentage amount method to amortize the unfunded liability over a 35-year period. The significant actuarial assumptions used to compute the actuarially determined contribution requirements are the same as those used to compute the pension benefit obligation.

Latest Actuarial Valuation Date	June 30, 1999
Asset Valuation Method	5 Year Average Market Value
Significant Actuarial Assumptions:	
Rate of return on investment of present and future assets	7.5% compounded annually
Projected salary increases	5.25% compounded annually
Post retirement benefit increases	3.0% interest annually
Mortality	1983 Group Annuity Mortality Table
Withdrawal	Graduated Rates
Disability	Graduated Rates
Retirement	Graduated Rates (100% by age 69)
Marital Status	85% married, spouse same age
Plan Expenses	None

CITY OF URBANA, ILLINOIS  
FIREMEN'S PENSION FUND

-8-

Notes to Financial Statements  
June 30, 2000 and 1999

Annual Required Contribution	\$ 440,150
Interest on Net Pension Obligation	0
Adjustment to Annual Required Contribution	<u>0</u>
Annual Pension Cost	440,150
Contributions Made	<u>458,118</u>
Increase (Decrease) in Net Pension Obligation	(17,968)
Net Pension Obligation, Beginning of Year	<u>(88,443)</u>
Net Pension Obligation, End of Year	\$ (106,411)

There were no changes in any actuarial assumptions that would significantly effect the pension benefit obligation or the required contribution.

Note 3 - Deposits and Investments:

The pension fund is limited by State Statutes and fund investment policy to invest only in obligations of the U.S. Treasury and its agencies, non-negotiable certificates of deposit and Illinois Public Treasurer's Investment Pool, savings accounts, general and separate accounts of approved life insurance companies (up to a maximum of 10% of the fund's net present assets), mutual funds (up to a maximum of 35% of the fund's net present assets) and money market mutual funds which are backed by U.S. government securities and agencies.

The fund's deposits and investments are categorized below to give an indication of the level of risk assumed at June 30, 2000.

Category 1 - includes amount that are insured and for which the fund or its agent in the fund's name holds the securities. These are U.S. government and its agencies obligations, certificates of deposit, and insured banks and savings accounts. Certificates of deposit in federally insured banks and savings and loans are insured in an amount equal to \$100,000 per fund plus an amount equal to each member's vested beneficial interest up to a maximum of \$100,000 per member.

CITY OF URBANA, ILLINOIS  
 FIREMEN'S PENSION FUND

-9-

Notes to Financial Statements  
 June 30, 2000 and 1999

	Risk Category	Amortized Cost	Fair Value
Busey Bank Checking	1	\$ 2,966	\$ 2,966
